### From the Principal— School is Still in Session!

It is that time of year again; the sun is shining; flowers are blooming; black flies are biting; and summer is near! However, we still have several weeks of prime learning time here at school. Teachers are still teaching and assessing curriculum. It is really important that we adults still take school seriously right up until the last day of school. That's something that we are trying to make clear with students, many of whom are asking, "Are we having extra recess during class today?"

Teachers recognize the internal shift that happens this time of year and we address that in a variety of ways. One way is by incorporating more field trips at the end of the year. Each field trip relates to or reinforces some part of the curriculum. They are also a great opportunity to expose our students to the resources our community provides. As a former third grade teacher, I loved our field trips to Acadia National Park. The park rangers that were our guides worked to tie the experiences to our curriculum standards, making clear connections to what students were learning about back at school. When I taught a unit on space to fifth and sixth graders, we went to the Challenger Space Center in Bangor for one of the best field trips I've ever been on. On this one, students had jobs as astronauts and/or as Mission Control and worked in a realistic simulation of a day in the life of a scientist at NASA. I'm excited that our sixth graders will have a chance to attend that field trip in the coming weeks as well. There are many other exciting field trips happening around the building, too.

Another way that we address this shift in anticipation of summer is to prepare them for continuing their academic learning when they aren't here in the building. "Summer slide" is a research proven occurrence for students. I will talk more about this in the coming weeks, but for now we are beginning to talk to kids about things they could do during the summer to keep their skills sharp. Many students have visited the Blue Hill Public Library as a resource for books throughout the summer, others have been introduced to math activities that they can access online.

I am really enjoying the longer days, warmth, and baseball games with my own children. I hope you and your family have opportunities to do the same! :)

Warmly,  
Shelly

### Kudos

Kudos to our favorite Physical Education teacher, Bob McCormick! Bob has been busy supporting our middle school students this year with an experiential education program through a partnership with Camp Beech Cliff. This idea started with Bob and was funded by a BEEM grant that he applied for. Owen Cassidy, the director of CBC, conducted four workshops for these students with a focus on teamwork, participation, communication skills, and group challenges. Next, 20 of our eighth graders worked with Bob in his other PE classes as mentors. Thank you, Bob, for providing your continued innovation in providing our students with opportunities to practice these important interpersonal skills!

### Notes From the Band Room

A really exciting concert is in the works for the 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> grade bands! A 50s & 60s Rock Hop will be held on Tuesday, May 24 from 6:00 to 8:00 at the BHCS Cafeteria/Concert Hall.

The 8<sup>th</sup> grade is still a bit short on fundraising for their class trip so we are having a 50s & 60s Rock Hop to support them. It will showcase their study of the Civil Rights era and the music of the 50s and 60s. Any extra funds will be donated to the 7<sup>th</sup> grade and the band department. It will also showcase the 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> grade bands playing music from that era.

To make this a successful fundraiser, I am asking all of the band members to participate. Admission is by donation so you may give whatever you can afford and enjoy great food, speeches, and terrific music presented by our talented students.

Please put Tuesday, May 24 from 6 to 8:00 on your calendar. Prizes, dancing, great music, and food will await you. Bring along a friend or relative and enjoy the fun. Costumes optional!

Thanks,

Mr. Schubeck, Ms. Hudson, Ms. Herrman
